EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In claim 6 line 1, "claim 1." was replaced with --claim 1,--

In claim 11 line 10, "in such" was deleted.

In claim 11 line 11, "to contain" was replaced with --so as to contain--.

Allowable Subject Matter

3. Claims 1-11 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The prior art of record (Magario) does not designate a sample zone from the displayed actual values. Instead, Magario determines a sample range and then displays that sample range. Once the sample range is displayed, Magario makes no further designation of a zone or range. It is the lack of this teaching, in combination with the remaining features and elements of the claimed invention, which forms the basis of the reasons for allowance.

Conclusion

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
